DS-1530HMI Mobile Alarm Terminal

Introduction

The DS-1530HMI mobile alarm terminal (hereinafter referred to as alarm terminal) is pressed by the driver in emergency. The terminal provides three LED indicators, respectively showing the mobile DVR power status, recording status and error status, which is beneficial for malfunction investigation.

Key Features

- Quick alarm in emergency.
- LEDs show the alarm terminal status.
- Built-in IR receiver for remote control.
- Built-in gyroscope for brake detection.
- Built-in sensor for capturing real-time acceleration.

Available Model

DS-1530HMI

Specifications

Model	DS-1530HMI
